YESTERDAY'S PROCEEDINGS OF THE 46TH CONGRESS

Webber's Testimony---International Exhibition in 1883---Internal Revenue---Printing, Etc.

SENATE.

WASHINGTON, March 31.—In the Senate, Sena or Cameron, of Wisconsin, rose to what he deemed to amount to a question of privilege. He stated that he was surprised to see that the testimony of E S. Webber, taken before the sub-committee of the committee on Privileges and Elec ions at New Orleans, appeared in the printed record of the case and laid on Senators' desks, though, owing to his failure to appear before the committee for the cross-examination, the committee had agreed to strike his direct examination out. A note, stating that the committee had agreed to strike out the testimony, appears on the very last page of the volume, but a great many of those who might read the evidence would not see this note, and Senator Cameron desired, by his remarks, to prevent Webber's evidence from prejudicing Kellogg.

Senator Hill said that on page 1,185 of the record of the committees' proceedings, the order to strike Webber's testimony appeared. He supposed that Webber's testimony, taken in New Orleans, was put into type before the full commit ee decided to have it stricken out, and, therefore, though technically stricken out, it was not physically stricken out. Everybody could see by the record that Webber's testimony was not apart of it. Senator Hill, in this connection, stated that two affidavits which were ordered stricken out by him also appeared in the printed volume. He was not a printer, but supposed that it was customary to print whole proceedings and let them speak for themselves.

Senator Saulsbury, chairman of the committee, said that the superintendent of printing testimony, taken before committee, had always been left to a stenographer. He had not thought it necessary to personally supervise the printing.

Senator Morrill asked Saulsbury if he had any objection to having Webber's testimony actually stricken out. Saulsbury had none, except that it would make necessary the printing of the whole edition of the report.

Senator Ingalls thought the incorrect reports should be withdrawn, and a correct edition printed. The volumes went into the public libraries all over the country, and the Senate should not stick at the expense of a few thousand dollars to correct an error which is prejudicial to one of the parties to the case.

Senator Logan (one of the committee) moved that the record of the case be corrected, either by reprinting or by leaving out the parts ordered by the committee ordered to be stricken out.

Senators Saulsbury and Hill saw no objection to this motion.

Senator Garland said the only parliamentary way to correct the testimony was to re-commit it for that purpose to the committee.

Senator Logan modified his motion, so as to re-commit the evidence with instructions to the committee to withdraw the copies already distributed, and correct the whole edition.

The motion was agreed to.

The unfinished business on the Calendar was then taken up, being a bill providing for the International Exhibition in New York in 1883.

Senator Maxey introduced a bill to revive the act of June 3d, 1856, and to grant land to the Morgans, Louisiana, & Texas Railroad and S. S. Co., an for other purposes. Referred.

The bill for an International Exhibition in New York in 1883, was passed.

The bill introduced by Senator Paddock, to enable persons who have entered less than 160 acres of land under the homestead laws, to enter enough to make 160 acres, was passed.

Senator Bayard, from the Judiciary Committee, reported favorably on his bill amending the Statutes, so as to prevent the arrest of State election officers on election day. Placed on the Calendar.

Consideration of the immediate deficiency bill was resumed. In advocating an amendment adding an appropriation of $51,000 for dies, paper and stamps for the Internal Revenue department, Senator Beck took occasion to highly compliment the present administration of that department, which by firmness in suppressing illicit distilleries and the fair and open treatment of all lawful distillers, had increased the revenue from spirits so much that this appropriation was made necessary to meet the increased business. This amendment, and the various Senate committee amendments were agreed to.

Senator Blaine offered an amendment providing that the employees of the Government printing office shall have the same holidays as other Government employees without losing their pay therefor.

Senator Davis (W. Va.) opposed this, as general legislation on an appropriation bill to which he objected on principle.

Senator Blaine asked Senator Davis if he would carry out that principle by voting against Marshal's clause in this bill?

Senator Davis replied that the Senate could not control the action of the House. To vote for the House bill was very different from voting for Senator Blaine's amendment.

Senator Edmunds opposed Senator Blaine's amendment, and rose to a point of order against it; that it proposed general legislation on a general appropriation bill.

The presiding officer (Rollins) ruled that the pending bill was not a general appropriation bill, and that Senator Blaine's amendment was in order.

Senator Edmunds appealed from his ruling, when a debate ensued as to what constituted a general appropriation bill, in the course of which Senator Blaine said he was opposed to the clause in this bill regulating the appointment of special deputy marshals because it was vicious in itself, and not because it was attached to an appropriation bill. To oppose it because it was on an appropriation bill was to make a petty objection. It was partizan in design, mischievous in intent and disastrous in consequences.

After further discussion the chair reversed his ruling, saying that while under the first clause of rule 29, the amendment seemed admissable, but under the whole rule it was not in order.

Senator Blaine was dissatisfied with this ruling, and an animated and amusing colloquy ensued between him and Senator Carpenter, who endorsed the chair.

Senator Edmunds then moved to strike out the marshal's clause.

The motion was defeated, and the bill was read a third time by a party vote.

Senator Eaton moved for an executive session, saying he thought the bill could be passed at an early hour to-morrow, which was agreed to, when the doors were reopened and the Senate adjourned.

HOUSE.

The Speaker proceeded to call committees for reports, when a bill was reported and disposed of as follows: By Mr. Culberson, of Texas, from the Judiciary Committee, relating to preliminary trials before commissions of the United States Circuit Courts. Calendar.

Mr. Buckner, of Mo., from the committee on Banking and Currency, to prohibit engraved signatures on National bank notes. Calendar.

Mr. Davis, of N. C., from same committee authorizing national banks to make loans on mortgages and real estate. Calendar.

Mr. Money, of Miss., from the Post Office and Post Roads Committee, reported back the post route bill, and it was passed.

Mr. Davis, of N. C., from the Judiciary Committee reported a bill authorizing National banks to make loans on mortgages of real estate.

Mr. Wait, of Conn. from the same committee reported a bill amending the statutes so as to allow any vessel not of the U. S., to unload at any port of delivery in a custom collection district which the Secretary of the Treasury may designate after due entry of said vessel and cargo at a port of entry in the same district. Calendar.

Mr. Johnson, of Va., from Military Committee, reported a bill to regulate the purchase of tobacco for army use. Calendar.

The resolution declaring Mr. Slemmons entitled to a seat from the Second Arkansas District, was adopted. The House then proceeded to consider Senate amendments to the star route deficiency bill. Mr Blackburn opposed amendments without final action. House adjourned.

GRAND MASS MEETING.

PETERSBURG, Va., March 31.—There was a Grand Mass Meeting of the Readjusters of this city held in the Academy of Music last night, for the purpose of organizing the spring and fall campaigns. Speeches were made by Hon. J. E Massey, Auditor of Virginia; Gen. William Mahone, Judge R. W. Arnold and others. Resolutions were adopted that steps should be taker at once to bind together more closely on a political friendship all the citizens of Virginia who are opposed to tinderism, bourbonism, class legislation, unequal taxation, and political proscription, and calls upon the Readjusters throughout the commonwealth to co-operate with them. Resolutions were also adopted endorsing the action of the Readjusters and members of the legislature in electing public officers, who are in sympathy with them, and also in repealing the Moffett punch bill.

Resolutions condemning the Governor for vetoing the McCulloch debt bill were also adopted.

OUT OF JAIL.

CINCINNATI, March 31.—When the cause of Milleralias Henry Petue, was called yesterday for the purpose of identification under a requisition from the Governor of Louisiana, where he is wanted to serve out a life sentence for a murderous assault, it was found that the man had been permitted to get out of jail and was there arrested by two detectives, who started for New Orleans with him. The court made no order in the case, no formal charge having been made against the jailer.

BILLIARD MATCH GAME.

LONDON, March 31.—Vignaux and Slosson will play a match game of billiards, four thousand points up, for $1,000 in Paris, from the 3rd to the 7th of April. There will be two referees—an American amateur and a French professional.

TWO MEN WOUNDED.

LONDON, March 31.—At Coal Island, in the county of Tyrone, a party of Orangemen on entering the town were attacked by a crowd of Roman Catholics. The police interfered and were obliged to fire, wounding two of the attacking party.

TOWED SUCCESSFULLY

ALEXANDRIA, March 31.—The Lighter, constructed to convey Cleopetras Needle from hence to New York, has been successfully launched, and is now being towed into this port.

TAKEN POSSESSION.

DENVER, Col., March 31.—The Western Union Telegraph Company have taken possession of their lines between this city and Cheyenne, which were seized by the Union Pacific Railroad Company in February.

HALIFAX.

HALIFAX, March 29th, 1880.

Our Superior Court adjourned Saturday evening, and Judge Gudger left immediately for Northampton.

We regretted to see him leave, for while he was here presiding, he reminded us of he judges we read of in the history of our past, and of whom we hear the old people talk so much. He impressed us, *one and all*, as a high-toned, honest gentleman.

Courteous and polite, rendering due to each and every member of the bar, bearing patiently the arguments of all. And particularly requiring the *counsel* to be courteous to each other.

Our court was largely attended on one of the important criminal cases, which required special venires.

It is suggested that there shall be a special term for this county, and if the Governor were to assign Judge Gudger to hold it, he would only favor the preferences above all others of both our bar and people.

One branch of the Merritt case was tried at the last term of this court, and not ask a verdict as to the three defendants then on trial, but the trial of John Merritt for the killing of Hicks was postponed until the next term.

Last night a negro named Lewis Taylor who was confined in the same cell with Merritt, cut his way out of he jail and then requested Merritt to follow through the same operation. This he refused to do, and remained in jail until the jailor came, when he might have gone with ease. H.

FRANKLIN.

MAPLESVILLE, March 29, 1880.

It is cold and cloudy with the ground very muddy.

Wheat is looking well in this section. Farmers are busy preparing for the coming crop.

Rev. S. R Tucker had the honor to link W. A Strickland and Fannie Harris, all of Franklin, in the Holy bonds of matrimony, on the 25th inst.

Messrs. Sikes and Harris are putting up a steam saw mill and dressing machine in this neighborhood. We hope the young men will do well with their machinery, for they want to do something for their neighborhood. I.

In this State we shall favor instructing the delegate not for any particular man, but against Mr. Tilden. We believe this to be the wish of nine-tenths of the Democrats in the State.—*Vicksburg Herald.*

State Convention at Syracuse—Municipal Election in San Francisco—Dalton's Postmaster—&c., &c.

CONVENTION CALLED.

NEW YORK, March 31.—The Tammany State Committee have issued a call for a State Convention at Syracuse on 20th of April.

MUNICIPAL ELECTION.

SAN FRANCISCO, March 31.—At 11 o'clock last night a vote of the city was about two thirds counted with the following result:

Citizens ticket, 11,760 votes; Workingmen's ticket, 7900; for joint Senator Byrnes, (Rep.) 11,612; Fruid (Workingmen), 7,635. This may be fairly indicative of the result.

CONFIRMATIONS.

WASHINGTON, March 31.—The Senate confirmed the nomination of James C. Riley to be postmaster at Dalton.

ANOTHER SUICIDE.

ATLANTA, March 31.—A special to the *Constitution* from Monroe, Ga., says that Robt. Upshaw committed suicide by blowing his brains out with a shot gun. No reason is assigned for the act. Upshaw stood well in the community.

A BIG RASCAL.

LONDON, March 31.—Rev. Newman Hall, D. D., a noted Congregational pulpit orator, who, in August of last year obtained a divorce from his wife, married, on Monday last, the lady to whom, he admitted to the court during the progress of the trial, he had communicated his intention to marry in the event of the success of the suit against his wife.

Officers of the Industrial Association.

Correspondence of the News.

RALEIGH, March 31.—Please allow me space in your paper to say a few words in regard to the Industrial Association in its election of officers for the present year. It may be said that this writing about the election is too late, but I take it that it is never too late to give praise when it is due, therefore I congratulate the Industrial Association on the selection of such a wide-awake, go-ahead, staunch, progressive man as John O'Kelly for president. I further congratulate you, gentlemen, on your selection of C. W. Hoover, alderman of the second ward, for treasurer of your association. He is a zealous worker who will at all times, look to the advancement of his race. He has a clear conception of business, and will aid much in successfully running the next Industrial Fair to the desired haven. Such men as you have elected will surely lead to the highest pinnacle of eminence. Let me not forget O. Hunter, Jr., editor of the *Journal of Industry* and secretary of the Industrial Association; he is a worthy young man, and deserves much credit for his arduous labors in the Association. But enough. You all doubtless know him better than I can tell you of him. FERN.

Lecture by Dr. Pritchard.

Wilmington Star.

The lecture committee of the Wilmington Library Association received a letter from Rev. T. H. Pritchard, D. D., President of Wake Forest College, signifying his willingness to deliver his promised lecture, under the auspices of the Association, on any evening that man be selected by them, and we learn from a member of the committee that Tuesday evening, the 13th prox., has been decided upon as the time for the proposed lecture, and the Opera House as the place. The Doctor has not yet announced his theme.

How New England Stands.

Correspondence Richmond Dispatch

I asked a noted New England Republican this evening how the Presidential question looked in his section. He said: "The hurrah boys are for Blaine, but the best people do not like Blaine or Grant. Mr. Sherman," he added, "has not been personally popular with them, and they are now centering on Edmunds as the best man to beat the Grant and Blaine booms in that quarter." I told him I thought Grant would be nominated whatever New England might do, and he seemed to think it rather looked that way just now.

Democratic Convention at Syracuse.

ALBANY, March 29.—The following call was issued to-day for a Democratic State Convention:

The Democratic electors of the several Assembly Districts of this State, and all others who intend to support the nominees of the Democratic National Convention, are requested to send three delegates to a State Convention to be held at Syracuse on Tuesday, April 20, at 12 o'clock, noon, for the purpose of choosing delegates to represent this State in the Democratic National Convention to be held at Cincinnati, June 22, 1880, and for the transaction of such other business as may properly come before the Convention.

By order of the Democratic State Committee.

LESTER B. FAULKNER, Chairman.

DANIEL MANNING, Secretary.

Gen. Grant will arrive in Hot Springs about the 12th of April, on his way north.

Now it is reported that the prolific Edison has made a wonderful discovery by which no end of wealth is to be extracted from the tailings of auriferous quartz after it has passed through the crushing mill. The invention may be all that is claimed, but after previous experiences the pensive public will no doubt prefer to wait a bit for a verification. On the whole the suspicion occurs that Edison has rather too many irons in the fire to succeed with all of them, if he does with any of them. One of the big things he was going to do off-hand was to invent a mode of abating the noise-nuisance of the elevated railways, but he failed utterly. A woman invented a better contrivance for the purpose than Edison's, and hers didn't amount to much, either. Edison knows a good deal, but he isn't omniscient, quite evidently.—*Washington Star.*

Looking at his Road.

Charlotte Observer.

It is reported here that Mr. Best went up the Western North Carolina Railroad yesterday to take another look at his newly acquired property. The view, we fear, will not be a rosy one. There have been just three accidents on the line, from the effects of which the road has not yet recovered, and Mud Cut is just settling down after having been on a boom for a week or ten days.

FROM WASHINGTON.

An Unexpected Scene in the Senate—Senator Thurman Seized with Vertigo.

Special Dispatch to the Baltimore Sun.

WASHINGTON, March 29.—A strange scene transpired in the Senate this afternoon dramatic and unexpected. Senator Thurman had taken the floor immediately after the close of the morning hour to make a formal motion in favor of having a speedy settlement of the Geneva award bill, now pending. He had not spoken more than a minute or two when Mr. Blaine came into his place on the floor, and drooping into that peculiar couching attitude which he always assume when about to speak, intently followed the words of Mr Thurman. The Senators observed this and drew about in their chairs and faced the two Senators. The Senators from Ohio favor a bill which gives the insurance companies indemnity as well as the ship-owners the selves, while the Maine Senator opposes it the moment Mr. Thurman took his seat. Mr. Blaine opened on him with one of his impetuous, taunting criticism, which serve at the same time to confuse and irritate his opponents. Judge Thurman retorted with much vehemence and some feeling, then Mr. Blaine replied with increasing vigor, making some *adcaptandum* applications of Mr. Thurman's views, which naturally caused that Senator to display some heat. At the close of one of Mr. Blaine's most pointed periods Mr. Thurman sprang to his feet, when suddenly, before he had uttered a word in reply, he clapped his hand to his forehead and rubbed it, as in pain, then dipping his fingers into the glass of water on the desk before him he moistened his temples in slow deliberate touches, then sank back into the chair from which he had risen without uttering a single word. Mr. Eaton of Connecticut, in some alarm took him by the hand; and Mr. Thurman slowly arose and tottered out into the cloak-room followed by a number of his colleagues, whose countenances showed much concern and sympathy. Mr Blaine being one of the first who passed over to his aid from the republican side of the chamber. It is said that the attack is a mere spell of vertigo, that Senator Thurman has been subject to it for the last thirty years. He was assisted to a sofa in the cloak room and was soon surrounded by Senators. Senator Withers, who if a physician, promptly ordered to him with such remedies as were at hand, cold water, &c. While still suffering the Judge requested that a messenger be dispatched to his house to inform his wife that he was not seriously ill. As is usual, exaggerated reports were soon flying over the capital, and from the rice spread through the city, to the effect that Judge Thurman had been stricken with paralysis and could not live. Telegrams were sent throughout the country to the same effect, But in about a half hour after the attack Mr. Thurman recovered sufficiently to leave the cloak room and walk to his own committee-room, on the lower floor. Shortly after he proceeded in a carriage to his residence on Fourteenth street, where Dr. Garnett, his family physician, attended him and pronounced him to be in no danger, and that he would probably be able to get out to-morrow.

Jay Gould's Railroads.

Cincinnati Enquirer.

Jay Gould's reaching out after new railroads received new attention to-day by the publication in a financial newspaper of the fact that he controls more miles of road than any other man. The Pennsylvania lines controlled by Colonel Scott have a total mileage of 5100, and the Vanderbilt roads are 4637 miles in length, including the Chicago and Northwestern, in which Mr Vanderbilt has an interest sufficiently large to entitle him to a deciding voice in its managemen. In the Gould system, however, there are 8168 miles of road. Mr. Gould is still seeking to control other roads, and reports are current that he is after the Ohio and Mississippi, the Cleveland, Columbus, Cincinnati and Indianapolis, and the Indianapolis, Cincinnati and Lafayette, aggregating 16,227 miles. In some States all the leading lines are under Gould's management. He has a formidable competitor in the Atchison, Topeka and Santa Fe, but all the other routes in Kansas are in his grasp. In Missouri he controls or is interested in every East and West line, except the Chicago and Alton. In Colorado he has every mile of road except that owned by the Atchison and all the lines in Utah are within his control. The fact that at present Gould has no connection with Louisville, Cincinnati and Cleveland adds weight to the report that he is after the Ohio and Mississippi. Gould's relations with the Baltimore and Ohio folks have been very intimate lately. Gould's American Union Telegraph wires were put on the road by the Baltimore and Ohio managers, and Gould and Garrett have been much in conference lately, and before Gould's late Western trip. Were Gould to secure the Ohio and Mississippi and then strike a compact with the Baltimore and Ohio managers, he would get a through outlet to the seaboard for all his roads west of the Mississippi; and were he to get control of the Iron Mountain Road, which rumor credits him with having in view, his system west of the great river would be well nigh perfect. By use of the New Jersey Central, New York would be reached in connection with the Baltimore and Ohio. That Gould is actively negotiating to effect such an arrangement is believed by many long-headed men in Wall street.

The Churches in North Carolina.

Biblical Reborder.

Statistics of Christian denominations in North Carolina, gathered from minutes of 1879 and correspondence with leading ministers of the churches given:

M. E. Conference (white)	66,059
Holston Conference in N. C. (white)	6,000
Virginia Conference in N. C. (white)	5,116
A M E Zion (colored Methodists)	26,044
A M E (colored Methodists)	8,087
M E Church (colored Methodists)	8,762
Christian (O'Kellyite)	4,605
Protestant Methodists.	13,500
Quakers	4,859
Lutherans (about)	10,000
Roman Catholics (about)	1,000
Moravians	1,182
Presbyterians	17,747
Episcopalians	5,544
Baptists (Missionary)	167,699
Baptists (Anti-Missionary)	9 750
Baptists (Campbellite)	5,970
Baptists (Free Will)	6,516

These figures show that there are in North Carolina 179,685 Pedobaptists and 189,935, Baptists. These statistics may not be exact, but they are very nearly so.

"What do you think of my new shoes, dear?" said she the other evening after tea. "Oh! immense, my dear, perfectly immense," said he, without looking up from his paper. Then she began to cry and said she thought if he thought her feet were so dreadfully large he needn't tell her of it.—*Boston Post.*

OUR CHARLOTTE LETTER.

NEWS AND VIEWS OF THE MECKLENBURG PEOPLE.

Gubernatorial—The House and Mr. Turner—the Joy of People Over the Sale—Spring Fights, Etc.

From Our Charlotte Correspondent.

CHARLOTTE, N. C., Mar. 30th, '80.

Charlotte is ahead of the entire South in one respect—she has a bellows factory. Hearing a good deal about it, your correspondent walked around to gather a few points for the benefit of the NEWS readers. We soon reached the Charlotte Bellows Works, as it is called, of Messrs. Newcomb Brothers, Agents, on Fifth street, between College and Railroad streets. Working our way through a perfect labyrinth of bellows, we spied the foreman, Mr. J. H. Newcomb, and, after a lively chase, succeeded in button-holeing him, and elicited this information:

The works are necessarily small at present, Messrs. G. E. & J. H. Newcomb having started them only last December, but finding that they are a success, they propose to enlarge them very soon, as soon, in fact, as their increasing patronage warrants it; and expect in a few years to be running an establishment of which not only Charlotte, but the entire State will be proud. They say their's is the only bellows manufactory in the South and that they will save money to every Southerner using their goods. Manufacturing from home stock, employing home workmen they can furnish goods as cheap, or cheaper, than in New York. They ship goods to every State in the South, and nearly every section of North Carolina, and find a ready sale for every pair turned out. In fact, at times a greater demand than they are able to meet and for that reason shall be compelled to extend their business, in order to keep a stock on hand. The works turn out 10 pairs and upwards per day, of all sorts and sizes, the number depending upon size and quality. The Messrs. Newcomb were formerly of New York, and understanding their business thoroughly, they make a first-class article, and are perfectly willing and anxious that their goods be tested by a comparison, in regard to durability and finish with bellows of the best Northern works. Mr. Newcomb seemed much flattered by patronage so quickly and abundantly bestowed by our Southern people, and says with such a railroad inlet to the South as Charlotte, and with such patronage and encouragement as he has received, he can but succeed in his enterprise, for every dollar he makes will save two to the bellows consumers of the Southern States. He seems particularly elated inasmuch as yet he has had out no traveling salesman, but has confined himself in his introduction to printers ink. His enterprise certainly deserves such hearty co-operating, and such a warm welcome is given by all North Carolinians to Northern capital and energy.

GUBERNATORIAL, &C.

Your correspondent from Milledgeville has started a boom that may surge and swell until it enthuses the entire State. I mean the "Worth Boom." It is believed that the Dr. will make one of the strongest of candidates, and is in every way capacitated to serve his State as its Chief Executive, and honor it by such services.

It would take an Arkansas judge to decide who is the choice of Mecklenburg for Governor, though it is generally conceded that Governor Jarvis is a little on the inside track. The candidates are so numerous, and so many spring up each succeeding day, that nearly every man you meet has a separate choice. One gentleman remarked to us on yesterday that Gov. Jarvis's action in regard to the Western North Carolina, had most certainly re-elected him; and another, when we mentioned Gov. Jarvis, said he did not see how Jarvis could possibly be elected—and so it goes. Some go so far as to believe tha the winner has not yet been entered for the race, and hint something about a "dark horse." One thing is certain, the Worth boom has taken some wind out of a good many candidates' sails, and may take some out of Gov. Jarvis's for all we know.

I see from the *Farmer and Mechanic* that a Polk—Atkinson boom has been started, but am unable to give you its probable strength up here, as its tidal wave has not reached Mecklenburg as yet.

The people do not see how the House could have acted otherwise in the case of Mr. Turner. Various are the comments about that gentleman, and he is pretty generally pronounced to be *non compos mentis* and a man of "brilliant incapacity, vast and various misinformation, and prodigious moral requirements.' His charges are conceited to be "mostly wind," and it is thought the key-stone of his opposition to the sale of the Western North Carolina Railroad lay, like that of "prominent journalist" mentioned in a late issue of the NEWS, in "his not having been consulted. We heard an Orange gentleman remark that he was afraid that mischief would spring from it, if not in State at large, at least in that noble old county; but if such was the result all blame would rest upon Mr. Turner, as no parliamentary body could have suffered such indignities to go unrebuked.

We saw more smiling, happy faces on the streets last Saturday than has been seen since our General Assembly met, and if I had not seen the morning *Observer*, I should have known from that evidence alone that the W. N. C. R. R had been sold and that everyone was rejoicing over that "burden" having been lifted from their shoulders.

A Surry correspondent of the Winston *Sentinel* comes out strong for Judge Fowle. He thinks he can obtain more votes in that county than any other man in the field.

Brother Jones, of the *Observer*, is out in a card this morning, stating that he has been requested by a good many friends to become a candidate for Mayor. He says he is not a candidate, but if the citizens of Charlotte desire him to serve in that capacity he shall feel duty bound to do so.

AROUND THE CITY.

Easter services in commemoration of the ressurection of our Lord's Savior were held in our churches last Sabbath—Episcopal, Lutheran and the Catholic. We attended those at St. Phillips' (Episcopal) and were most certainly entertained by the music, which was splendid and edified by the pertinent and eloquent discourse of the Rev. Mr. Mason.

The Reduction works will begin operations in about a week. We will visit as soon as under way, and let your readers hear all about them. No enterprise has ever benefitted this section as much as this will, if successful, and everything is propitious.

A colored woman named Easter Lowery was found lying dead on the Statesville road, a few miles from this city on Saturday last. A coroner's jury returned a verdict of death from heart disease, from which it seems she had been suffering.

One Jos. Ross has sued the Richmond & Danville Railroad for putting him off of the train, he lacking only ten cents of having sufficient to pay his fare to destination. He placed damages at $200. The case was tried before Justice Waring last Saturday, who decided in favor of allowing plaintiff $30 damages. The case has been carried to the Superior Court, and the public will await with interest the decision of that court, inasmuch as it involves a point of great importance.

The bridge on the C. C. & A. R. R., over Congaree river, near Columbia, was fired by an incendiary, a few days since, but the fire was put out before much damage was done. One Thomas Hunt, white, has been arrested on suspicion and bound over in the sum of $500.

Rev. J. F. Butt, of this city, made a talk to the pupils of the Monroe High School last week. He told them that North Carolinians were first called "tar-heels" in the war because they would not desert, but stuck to the field of battle.

The "spring fights" have most certainly opened. Three within a week. In one a city gent frescoed a countryman's face to such an extent that he was unable to leave his bed for several days; in another, one gentleman, suffering from too many "shorts," broke his brother-in laws jaw bone and disordered his whole nasal apparatus; and in the third, a driver of a city hack named "Buster," busted the cranium of a gentleman of the colored persuasion who was practicing pistol shooting with the buster for a target.

The Scottish band of bag-pipes, drums and haut-boys, which was in Raleigh a few weeks since, has run equally as many people crazy in Charlotte, in the last few days, as the "15 puzzle."

Mrs. Campbell, who has been teaching a cooking school in your city for some time, lectures here to-night and opens her school to-morrow. We understand that a good many ladies intend attending.

The Board of Aldermen of this city have ordered that an election shall be held on the 3d of May, to decide the question of the establishment of a public graded school.

Apropos of schools and education, a minister of this section, (county and denomination purposely withheld) in arguing with a gentleman against taxes and appropriations for public schools, said he was opposed to it mainly from the fact that he did not believe education a necessity to success and usefulness, and in concluding his argument, quoted himself as a proof of this assertion, in that he had been very successful and useful in his calling, and had never been able to read a line in his life.

"What, Mr. A.,"—exclaimed the astonished gentleman, "not read? How in the world do you manage to preach without being able to read?"

"Oh!" triumphantly replied the minister, "Mamma, she reads, I splains and spaunds!" A. H. S.

The Two Orphans.

Theatre lovers will be delighted to hear that Ford's Southern Comedy Company will be here Friday night.

In alluding to the appearance of this company in that city, the Richmond *Dispatch* says:

Miss Marie Bockel will give an exquisite portrayal of the blind Louise, and, with Miss Belle Mackenzie as the sister, Henriette, who could find fairer or lovelier pictures? Mrs. Germon, as the Countess, and Miss Blanche Thompson, as Marianne, the outcast, will add a beautiful coloring to the performance. Mr. George Denham, as both Pierre, the cripple, and Picard, the inquisitive valet, will show his ability as an actor, both of deep pathos and light comedy. Mr. Downing will appear as Jacques, and Mr. Galloway as the Chevalier.

The purity and loveliness of the two sisters, alone in the strange city, the one blind and the other so attentive, cannot fail to excite the sympathy of all. Their faith saves the outcast Marianne; it nerves the manly chevalier to defy his own set for the sake of the poor working girl; it rouses the love of the beautiful countess, the pity of the good Doctor, and causes the good Sister of Charity to utter "her first falsehood" to save them from a fate worse than death. Their helpless situation gives strength to the weak cripple who, to defend them, defies his strong, bullying brother to a duel of knives. The final rescue of the sisters and their established happiness ends one of the most charming performances that ever interested audiences. We anticipate a crowded assemblage to witness the drama.

The Prince and Princess of Wales went the other evening to see Miss Genevieve Ward in "Forget-me-Not," and the Prince, in talking with the actress after the performance, paid a pretty compliment to her countrywomen. While expressing his pleasure at Miss Ward's acting, he happened to say that she was French, and when she asserted her nationality, he said pleasantly: "I always thought the American ladies the cleverest in the world."

Great News.

It is great news indeed that there is at last a remedy (Warner's Safe Nervine) which will relieve all kinds of pain and give rest and sleep without injury to the system. The discoverer of this remedy is considered the most skillful nerve doctor in the world.

Poverty and Distress.

That poverty which produces the greatest distress is not of the purse but of the blood. Deprived of its richness, it becomes scant and watery, a condition termed *anemia* in medical writings. Given this condition, and scrofulous swellings and sores, general and nervous debility, loss of flesh and appetite, weak lungs, throat diseases and consumption, are among the common results. Therefore, if you are a sufferer from thin, poor blood, do not hesitate, but employ Golden Medical Discovery, which enriches the blood and radically cures these affections by striking at the root of the evil and removing the cause.

For all bronchial, throat, and lung affections, severe lingering coughs, weak lungs, consumption in its early stages, asthma and kindred affections, Dr. Pierce's Golden Medical Discovery is the sovereign remedy, and has out rivaled all its competitors. It is harmless in any condition of the system, yet powerful to cure. Druggists sell it.

Over twenty thousand car-loads of live and dressed poultry are carried into New York city yearly, and 25 000,000 dozens of eggs go to the same market. According to the best estimates, the United States produces nine thousand million of eggs annually. This is a nice little item for the consideration of those who call chicken business—egg raising—a small thing. A common pin is a very little thing, but a paper of pins is worth setting a price on; while the manufacture of pins like the production of eggs, is an industry worth the attention of men of ability and the investment of capital.

Profit $1,200.

"To sum it up, six long years of bed-ridden sickness, costing $200 per year, total $1 200—all of this expense was stopped by three bottles of Hop Bitters taken by my wife. She has done her own housework every year since, without the loss of a day, and I want every body to know it, for their benefit.

PARNELL'S SET-BACK.

UNDAUNTED AMID A SHOWER OF ROTTEN EGGS.

The Irish Agitator Before the Mob—He Makes a Fruitless Attempt to be Heard—Full Details.

By Cable to the Herald.

ENNISCORTHY, March 28, 1880.—Mr. Parnell, who since his return has carried things with a high hand, had almost assumed a dictatorship as regards political affairs. But he met with a significant check at a meeting held here to-day for the purpose of selecting candidates for the Parliamentary representation of Wexford. Mr. Parnell and two of the three candidates, Messrs. Byrne and John Berry, traveled from Dublin by the nine o'clock train. At Arklow and several other railway stations large crowds assembled on the platform to see and to cheer them. At Ferns, however, the enthusiasm was by no means so great as before. Many of the people shouted for Chevalier O'Clery, who is the third candidate. When the train arrived at Enniscorthy it was received by an extremely large throng. Mr. Parnell and his friends were cheered, but the reception was lukewarm in comparison with that which was accorded to the Rev. Joseph Murphy, of Ferns, who had traveled down from that town on the same train.

SCUFFLING ON THE PLATFORM.

It was arranged that the meeting should be held at two o'clock, but the point of vantage was already occupied by the Chevalier O'Clery and six priests, and around them rallied the Chevalier's supporters in large numbers. Mr. Parnell's party had decided that the Rev. Mr. Kenny should preside, but the meeting selected Rev. Mr. O'Gorman, who was, however, assailed by a man named Murphy. A scuffle ensued. The priest flung his assailant off the platform. At this moment Messrs. Parnell and Barry were seen advancing at the head of a large crowd, with a band playing and green banners flying. They marched down the sloping ground toward the platform. The assembly numbered not less than 15,000 men. The platform was densely crowded. Amid a great scene of disorder Mr. Parnell struggled to the front of the stand. His appearance was a signal for the uproar to commence. The confusion lasted for several minutes. Yells, groans, cheers and cries filled the air. Rotten eggs were thrown at the agitator. One of them struck him on the beard. For a moment Mr. Parnell appeared to be on the point of addressing the people, but if he had formed this design he immediately abandoned it.

"PUT PARNELL DOWN!"

Silence having been in a measure restored the chairman, waving his stick over his head, said:—"Men of Wexford, listen to me. We come here to-day to select a representative for our county. We will hear Mr. Parnell, but we will not allow him to be our dictator." A violent uproar then began. The crowd surged toward the platform shouting. Several cried, "Put Parnell down! Put Parnell down!" A rush was made at him by some men on the stand. They seized him, crying out, "Parnell will go down to hell!" and endeavored to drag him to the ground. He clung to the front of the railing. Father Murphy and several other priests put their arms round him and endeavored to protect him from the violence of his assailants, who continued to crush forward. It seemed probable that he would in another minute be thrown off the platform. The crowd hooting and shouting, caught him by the legs endeavoring to drag him down. In the struggle his hat was battered and his trousers split up to the knee. He was only saved from another blow by a stick being suddenly seized from behind by a gentleman who represented a newspaper. At this stage in the proceedings the police, armed with rifles, advanced through the people and took up a position near the platform. There was a lull in the noise.

A DISORDERED RETREAT.

Mr. Parnell was again about to speak, when he was interrupted by a voice calling out, "Take of your hat!" A rush was made at him by the people, who again tried to drag him off. He succeeded, however, with the assistance of the priests, in resisting the attack. He tried to address the people, but his remarks were inaudible amid the uproar and shouts of "Down with the Dictatorship!" "We did not invite you to go down!"

None receive so much benefit, and none are so profoundly grateful and show such an interest in recommending Hop Bitters as women. It is the only remedy peculiarly adapted to the many ills the sex is almost universally subject to. Chills and fever, indigestion or deranged liver, constant or periodical sick headaches, weakness in the back or kidneys, pain in the shoulders and different parts of the body, a feeling of lassitude and despondency, are all ready removed by these Bitters.

RALEIGH, March 16, 1880.

I have used Mrs. Nelson's CHEROKEE remedy for Coughs and Colds with very satisfactory results. It is a valuable remedy and I recommend it to heads of families. W. WHITAKER.

It is the best thing for Whooping Cough and Croup, Coughs, Consumption and all affections of the Lungs. It is pure and harmless—for old and young—ladies and infants. 100 bottles sold in Raleigh, and everybody says Cherokee Indian Cough Cure is the best thing they ever used. Further desired, address Mrs. SUE NELSON, Raleigh, N. C. Little money required.

DAILY NEWS

THURSDAY, APRIL 1, 1880.

GEO. C JORDAN, Editor and Propr

AT noon Wednesday the aggregate of the contributions sent from America to the relief of the suffering poor of the famine districts of Ireland was $1,002,600. This is larger than the reported aggregate of both the Dublin funds, that of the Duchess of Marlborough and the Mansion House combined. The New York *Herald* fund had reached the magnificent sum of $313,689. Of the total sent from this side of the Atlantic, $450,000 is credited to the Catholic churches.

SECRETARY THOMPSON has written a graceful and appropriate letter of instruction to Commander E. W. Potter, Captain of the United States frigate Constellation, which sails from the Brooklyn navy yard for Dublin with a cargo of supplies contributed by American citizens for the relief of Irish distresses. The employment of an American man-of-war on such a mission, the Secretary writes, was demanded by the active sympathy of our people with their suffering kinsmen and friends over the sea, and he feels sure that Commander Potter would rather steer an unarmed ship upon such an errand of charity and benevolence than lead her, full equipped, into the heat of battle.

THE San Francisco *Alta* gives some figures to show how the people of that city are bled by mining companies. During the last five years the people of Frisco have paid no less than $65,000,000 in the way of assessments on mining stock. This money has all been spent, and has returned the insignificant sum of $5,000,000, while the true value of these mines to-day is only $10,000,000, or about 14 per cent. of what was paid on them This, however, is not the worst showing. Of this $65.000,000 paid in as assessments $52,0 0,000, or 80 per cent. has gone in mines that never returned a cent of dividend, and $6 500,000 in mines, whose assessments exceeded the dividends paid out by them.

MR. JAMES REDPATH, who is travelling in the famine-stricken districts of Ireland, writes to the New York *Tribune* that the report that the several funds that have been raised in aid of the starving Irish are misapplied is not to be believed. He claims to have carefully examined into the executive workings of each of the committees, and, from his investigation, is convinced that great impartiality is shown by all of the dispensers of charity; and that the donations are in all cases given to those who greatly need them. He thinks that the work of each committee supplements that of the others, and that considerable advantage arises from having three or four organizations in the field instead of one. The Land League committee has, in his judgment, one merit over the others, that not a penny is paid out of its funds in salaries to secretaries and clerks.

THE severity of the past winter in Europe has been remarked upon as almost without precedent. It is true, it has been very severe, not only in the northern countries, and in Germany and France, but in the southern parts of the continent. In Florence, the Arno was frozen over, and there was skating, and parts of Italy were covered with deep snow for two months. They have had no such winter in Paris since 1830. Early in December, 1879, there was a deep snow, and cabs were seen in the streets drawn by five horses. It cost the city one million and a half of francs to make the streets passable. The Seine was frozen over, which, it is said, has only occurred five times in a century. Business of all kinds was interrupted, and prices of food went up; venison and other game from Germany were the cheapest food in the market. Nearly 120,000 persons applied to the authorities for relief or assistance, and large amounts were raised by public subscription in aid of them.

Now that the Utes are in Washington they refuse to say anything about the outbreak last fall. Before the Indian Committee the other day Ouray was non-committal, and his evidence was highly unsatisfactory, while Jack pretended that he did not understand English and refused to answer. As his examination was about to conclude he suddenly broke forth in very good English, denied that he had anything to do with the fight with the troops, and had no band in the Meeker massacre. The committe was very much disgusted with the outcome of the investigation. Ouray was told that the object in bringing the Indians to Washington was to hear their version of the Colorado difficulties, and that the committee was friendly to them and anxious to protect them in their rights. He listened attentively, the dispatches say, but made no reply. So it appears that after all the trouble of the government in persuading the Utes to go to Washington, it is as far as ever from getting any intelligible and reliable statement from them.

AMONG the short speeches made just before the final passage of the bill for the sale of the W. N. C. R. R. by the Senate, none was better received than that of Captain Harris, Senator from Franklin county. In reply to those who contended that this was all the work of demagogues in levying taxation, he said on the contrary it was the voice of the people and while he did not desire to be classed as an especial friend of Governor Jarvis, yet he was glad he had the backbone to submit this question to the Representatives of the people and let them determine what should be done with their property. While his constituents did not feel able to bear the taxation to complete this road in a reasonable time he believed they were willing to have it sold on guarantees of its completion and thus afford an outlet to a large section of our State now almost locked up from the commerce of the world.

IT IS reliably stated that the paper combination is only awaiting the adjournment of Congress to make a still further advance in the price of its commodity. The rate proposed is 12 cents per pound, double what it was six months ago. During the war this greedy ring raised the price to 27 cents a pound. There are no limits to its rapacity. The members of this combination have forfeited all claims to further protection for the government through the tariff. It was not contemplated to protect monopolies and pamper pet corporations by the protective system. The advocates of that system always maintained that competition would prevent unduly exorbitant prices by adjusting profits to a fair and equitable standard. This understanding has been wantonly broken, not only by the paper making ring, but by other manufacturing combinations, and Congress will discharge a simple act of justice and of duty to the country by repealing the present onerous duties by which the paper monopoly is sustained.

MR. DAVIS OF MADISON.

Owing to so much other matter we could not, the other day, give a synopsis of the speech of Mr. Davis, (Rep) of Madison, on the assays of the bill to sell the W. N. C. R. R. We give it now. He said in substance, that he was anxious that the bill should pass as it came from the committee. He regarded amendments as attempts by open enemies, and pretended friends to kill the measure. He was surprised at the course taken by the member from Henderson, and one of the members from Buncombe (Mr. Atkinson.) Did they desire that this measure, fraught with so much importance to the entire west, should be defeated? If not why were they acting with and encouraging those who were deadly enemies to the bill? The resolution passed at Asheville spoke the truth. No one can deny that. The people would hold to a strict account all those who so far forget their duty as to desert them in this hour of need. Let the bill be passed without amendment. It is the best we can do. To amend is to defeat. Let this be clearly understood. The completion of this road will develop the finest portion of North Carolina and surpassed by none on the globe. The people of the west had long and anxiously looked forward to this work of improvement with at times bright hopes and at other times gloomy foreboding. It would be cruel and unjust to deprive them of this opportunity. There is no party about the matter. The only question is shall the west have a railroad? Every thing we have and hope for is centered in this question. It is our life. We appealed to western representatives to stand firm and vote down all amendments. The question is too grave the interests effected too serious to be trifled with. Now is the time for one and all like true Carolinians to march up and patriotically discharge the duty all owe to the west, and which duty will cause the realization of those long cherished hopes which our people have felt.

Sly Doctors.

It is a fact that many of the "segulao" doctors who will not recommend Warner's Safe Kidney and Liver Cure for the diseases which it so effectually removes, yet use it "on the sly" in their practice. They must soon adopt it openly as the standard remedy.

One Way to Economize.

Many a poor man, if required to account for the manner in which he has expended his income, would find bills of his family physician for "medical services" among the leading items. In seven cases out of ten, acute diseases are the result of some neglected chronic disease. Thus, fevers invariably result from diseased conditions of the blood and liver, and a timely use of alterative, or blood-purifying, and cathartic remedies would have averted the prostrating illness, that often leaves the system irreparably injured. Dr. Pierce's Golden Medical Discovery and Pleasant Purgative Pellets are the best alterative and cathartic medicines yet compounded. Full directions are given for administering them, together with an accurate description of the symptoms demanding their use. They will not cure all human ills (as some medicines are advertised to do), but they will cure the diseases for which they are compounded and recommended.

The very large sale of Eureka Sewing Silks is accounted for, from the fact that those who use them once will use no other. The Eureka is sold by W. H. & R. S. Tucker.

Cuticura

REMEDISE

Have Achieved the most noted success of any Medicines of Modern Times.

Messrs. Weeks & Potter have never doubted the specific properties of Cuticura, Cuticura Resolvent and Cuticura Soap, for the speedy, permanent, and economical cure of all forms of torturing, disfiguring, itching, scaly and pimply diseases of the blood, skin and scalp. They are, however, astonished at their universal success; for it was to be expected that in the hands of some they would fail solely from spasmodic or ignorant use of them.

They are enabled to say without fear of contradiction that no remedies ever achieved in the short space of one year the number of wonderful cures performed by the CUTICURA REMEDIES.

SALT RHEUM,

Covering the Body for Ten Years, Permanently Cured.

LAW OFFICE OF RAS HOUGHTON,
17 Congress St., Boston, Feb 2, 1878.

Messrs. WEEKS & POTTER: Gentlemen,—I feel it a duty I owe suffering humanity to let through you all who are interested to know the fact, that a most desperate and loathsome case of Salt Rheum or Eczema, which has been under my personal observation from its first appearance to the present time, about ten (10) years,—covering the greater portion of the patient's body and limbs with its peculiar irritating and itching scab, and to which all the known methods of treating such disease had been applied with no benefit, has completely disappeared, leaving a clean and healthy skin, under a few days of profuse application of CUTICURA.

I can and do heartily advise all similarly afflicted to try the remedy which has been so effectual in this case.

Very truly yours,
CHAS. HOUGHTON.

Liver Complaint.

And Dyspepsia Treated by the Resolvent. Gains 5 1-2 pounds on one bottle.

GENTLEMEN,—I have had Liver Complaint and Dyspepsia, with running sores on the side of my neck, for ten years. Doctors did me no good. I have been specking for eight years and it did me no good. Everything I ate disagreed with me. I got reduced from 170 to 132 pounds. At last I tried the RESOLVENT and it helped me right off, and on one bottle I gained five and one-half pounds. It is doing the business, and I am getting stronger every day.

Yours truly,
JOHN H. ROY.
114 W. Wash. Ave., Chicago, Ill., Nov. 15, 1878.

NOTE.—Cuticura is admirable assisted in cases of extreme physical weakness, or when the virus of Scrofula is known to lurk in the system by the internal use of the Cuticura Resolvent, without doubt the most powerful blood purifier and liver stimulant in the world.

Cuticura Soap is an elegant toilet and medicinal assistant to Cuticura in the treatment of all external ailments. For chapped hands, rough skin and tan, sunburn, and the lesser skin troubles, it is indispensable; as a soap for the toilet, the nursery and bath it is the most elegant, refreshing, and healing before the public.

These great remedies succeed where all others heretofore in use fail because they possess new and original properties never before successfully combined in medicine. The Cuticura Remedies are prepared by Weeks & Potter, Chemists and Druggists, Boston, and sold by all Druggists. Price of Cuticura small boxes, 50 cents; large boxes, containing two and one-half times the quantity of small $1. size (ordinarily sold for $1), $1 per bottle. Cuticura Soap, 25 cents per cake; by mail, 30 cents; 3 cakes, 75 cents.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; or SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Jos. S. Fisher, president; W. I. P. Ingraham, vice-president; W. Paine M. D.; C. S. Gaunitt, M. D.; H. J. Doucet, M. D.; R. J. Kline, M. D.; J. R. Holcomb, M. For Sale.

A Rare Chance for Investment.

Wishing to give my whole attention to the lumber trade, in which I am about to engage on a larger scale than ever before, I offer for sale on terms to suit the times the following valuable property in Cary:

I.

MY PLUG TOBACCO FACTORY, in a BRICK building 50x80 feet, 3 stories high, the lower story being two large storerooms. The Tobacco Machinery is new and has a capacity of manufacturing 1,000 lbs. per day. The factory has been worked a year, and a good beginning for a trade has been made. The building and the machinery will be sold together, or separately to suit purchasers.

II.

GRAIN MILLS,

in a 3 story brick building, 28x40 feet. Two Wheat Mills and one Corn Mill, new and complete with a capacity for grinding 100 bushels of wheat and 100 bushels of corn a day, and can compete in quality of flour with any mills in the State. The mills have had a very large local patronage during the past year. They are driven by a 60 HORSE POWER STEAM ENGINE, improved, of the make of Talbott & Sons, Richmond.

Attached to the engine is also a 60 Saw COTTON GIN and power press, at a safe distance (about 100 feet) in a different lot. The engine has a brick smoke-stack 60 feet high, making the danger from fire the least possible and the rate of insurance very low.

III.

Several well built and handsome residences, with lots and gardens of about 1 acre to each dwelling. They are wooden buildings, 2 stories high, with from 5 to 7 rooms each situated in desirable locations in the village.

Besides these, 4 one acre lots, with cottage buildings of 2 rooms.

TERMS: One third Cash; balance on reasonable time.

Alternates—John E Lippitt, John W Gordon, H G Smallbones and John C James.

Daniel Last Night.

The Cantata of Daniel was well attended last night by one of the most refined and appreciative audiences this city is capable of producing. The prelude on the organ by the lady directress was performed with rare execution, delicacy of touch and depth of feeling, and received general expression of unqualified praise. The singing was performed in excellent time, the voices all fresh and well trained, and a number of them unusually well trained. The solo singing among the ladies was beautifully rendered, particularly by the Queen and Azariah's sister. In the gentlemen's role Maj. Hardin and Mr. Dodd were the recipients of the most praise, and indeed sustained their parts in a manner that would do credit to professional bassos. The choruses were grand in every sense of the word., Excellent time and fine expression were preserved throughout, and the organ accompaniment was even better than the singing. The beautiful and effective execution of the performer on this instrument was the subject of general remark. The repetition of the Oratorio was pronounced to be better than it was when first performed, by all who heard both.

The News from Maine.

Hop Bitters, which are advertised in our columns, are a sure cure for ague billiousness and kidney complaints Those who use them they cannot be too highly recommended. A Certain and Speedy Cure.

FREMONT, N. C., Sept. 18, 1879.

MRS. JOE PERSON:

Dear Madam:—My little boy, who is now three and a half years of age, has, since last September, been suffering with scrofula, I secured the aid of one of our best physicians, who treated him about six months; the child continued to grow worse all the time. About five weeks ago I procured a bottle of your Bitters, and have been using it in connection with the powders furnished to make the wash, and I am now proud to say that after one week's use of the medicine he began to improve and has continued to do so, until he seems to be now almost entirely well. I am very grateful to you for what your remedy has done for my child, and take great pleasure in saying I am satisfied you have found a certain and speedy cure of this dreadful disease.

Please send me one bottle of your Bitters which I think will be sufficient to effect a final cure of my child.

Yours respectfully,
J. C. D. ALDRIDGE

Seven Springs Iron and Alum Mass

This most excellent remedy is becoming more popular with our people every day. It is one of the few medicines that improves on acquaintance—the more one knows of it, the more its virtues are appreciated. Everybody who has given it a fair trial, speak well of it. Our druggists sell large quantities of it. People are not afraid to use a medicine that they know to be efficient for their ailments, and at the same time harmless in its nature. Read what is so aptly said of it, in another column of this paper. Truth is mighty and will prevail. feb27 tf

The Florence Nightingale of the Nursery.

The following is an extract from a letter written to the *German Reformed Messenger*, at Chambersburg, Penn:—

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say "a blessing on Mrs. Winslow" for helping her to survive and escape the griping, colicking, and teething siege. Mrs. Winslow's Soothing Syrup relieves the child from pain, and cures dysentery and diarrhœa. It softens the gums, reduces inflammation, cures wind colic, and carries the infant safely through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething" If we had the power we would make her, as she is, a physical saviour to the infant race Sold by all druggists.

Use the Eureka sewing silks and Eureka button hole twist. They will give perfect satisfaction. Sold by

Charles S. Prentice, of Toledo, O., went to Paris and thence to England to be treated for Bright's disease, and after the best physicians of both countries had done what they could for him gave up in despair and returned to America to die. Here he received further treatment from other skillful physicians without benefit, and while "listlessly lingering in pain and anguish," he says, heard of the Safe Kidney and Liver Cure, took it, and was completely cured in a few weeks. He gives circumstantial details of his painful experience.

FORD'S SOUTHERN COMEDY COMPANY in the great seven-act play entitled

THE TWO ORPHANS.

"Were some of the clergymen who denounce the theatre to witness such a play as that of the TWO ORPHANS, they could not avoid modifying their opinions. Though French in its origin, the play is so thoroughly wholesome in its tone, and preaches so powerful a sermon against vice, that its influence must be altogether good."
